Attention

1.Please observe the following safety instructions. Failure to follow the instructions may result in personal injury and property damage. Failure to follow the operating instructions, especially the damage caused by the safety and operating instructions, will invalidate the product warranty. The manufacturer will not be liable for any subsequent losses.

2.When an output overload occurs,the power supply will automatically shut down. At this time, disconnect all equipment and sockets, check whether the output of the connected equipment exceeds the maximum rating, and reconnect the power and push the overload protector after avoiding the output power exceeding the maximum rating of the socket.

3.Do not touch, damage, expose or energize parts. Risk of electric shock.Before use, make sure to check the socket for damage. If the cable insulation or shell is damaged, stop using it.

4.Do not install this device during a lightning storm. For indoor use only.

5.Do not use with aquarium equipment.

6.Never clean the multiple socket when it is energised.

7.Remove the plug from the outlet before cleaning.Never immerse the multiple socket in water. Waste electrical products should not be disposed of with household waste.

8.Please recycle where facilities exist.Check with your Local Authority for recycling advice.

PRODUCT GUARANTEE CARD

Installation

Clamp mount

Edge mount

Step 1
Place the item on the desk surface as required. And then screw in the desk.

Step 2
If using the clamp, install the iron clamp in the product bracket, screw on the long nut screw, and gently tighten the clamp to secure. Do not over tighten.

Step 3
Insert the plug on the end of the product power cable into an appropriate 110-125v mains outlet.

Installation is now complete
